City of Stillwater
City Commission
723 S. Lewis St.
Stillwater, OK 74074

Dear City Commission,

We are asking for a right of way agreement for our fence at 1005 S Knoblock in Stillwater. We replaced an existing chain link fence at this address with a privacy fence along the back and side of the house. We were not aware at the time that this prior fence extended into the city right of way on the side of the house toward 10th Street. There is approx. 12ft of fence on city right of way. The fence does not extend past the sidewalk. The new fence does not obstruct any traffic sight lines. We do feel the fence adds to the look of the neighborhood and does not detract from the neighborhood. Since we have already installed this fence we would prefer to not remove this portion of fence at this time. We understand that if the fence needs to be replaced in the future we would not extend into the right of way at that time. We also understand that if the City needs to do work that includes this right of way that the portion of fence in the right of way would be subject to removal. Thank you for your consideration.

Signed,

Derek Irwin
