

Meeting Date: October 17, 2016

Consent Docket Item: 7-b

Report No.: CC-16-127

Department: Transportation

Subject: 6th Avenue and Perkins Road Design Contract (PW0F01) Amendment 7: Road Intersection Improvement Project ODOT 26369(04)

Budget Impact: The original agreement with LEIDOS/SAIC/Benham in the amount of \$274,664.60 was approved on May 24, 2011. With six prior amendments totaling \$283,657.85, the current total amended contract amount is \$558,322.45. Amendment No. 7 in the amount of \$24,603.80 is for changes to the construction documents including: \$10,935.24 for pedestrian improvements, \$2,991.68 to modify hardscaping aesthetic improvements and \$10,676.88 to meet conditions of landowner agreements. The funding source for the professional services is the Transportation Fee Fund and money to cover the proposed amendment is available. If approved, a budget amendment will be processed to appropriate the money to the project, which will then be encumbered to pay for the additional services. Amendment #7 is expected to be the final amendment for design and right-of-way portion of the project. Upon completion of the project, a final invoice is expected from ODOT to reconcile the actual construction costs.

Prior Council Action or Part of an Approved Project: Yes

Related Items: See attachments.

Alternatives: Approval of this amendment will complete design improvements to the 6th and Perkins project, meeting our obligations to ODOT and citizens, including ADA users of the intersection and the directly impacted landowners who have right-of-way purchase agreements with the City.

Recommendation: The Transportation Department recommends that the Council authorize staff to execute Amendment Number 7 to the 6th and Perkins Project professional services agreement with Benham Design LLC (a successor in interest to Leidos Engineering, LLC) and authorize expenditures up to \$582,926.25 for the professional services, which includes \$24,603.80 for Amendment Number 7.
