

## EXECUTIVE SUMMARY

DATE: 6/20/2016

TO: Stillwater City Council

FROM: Patty Evans, Planner II

VIA: Paula Dennison, Development Services Director  
Norman McNickle, City Manager

SUPPLEMENT TO: Amendment to City of Stillwater Design and Construction Standards

The Federal Highway Administration (FHWA) reviews and adjusts the urban area and street classifications for each political subdivision after each decennial census. The City of Stillwater, by Resolution CC-2013-70 adopted the Functional Classification Street map as approved by FHWA. Oklahoma Department of Transportation supplied the approved, signed map electronically to the City. In reviewing the City of Stillwater Standards, the functional classification of streets references the classifications identified in the STEP Plan rather than those approved by the Federal Highway Administration.

The proposed amendment to Standards will correct this conflict and will further recognize the functional classifications of streets as those approved by FHWA with map adoption by the City of Stillwater.

The approved classification map is included for information and Resolution CC-2016-21 is prepared for City Council action.
