Prepared by: Captain Kyle Gibbs

Background Information: This project is for the purchase of 8 new police vehicles as well as required equipment to maintain the police fleet. This project is included in the approved FY17 budget (17PD01101 in the amount of \$368,208).

The vehicles, equipment and equipment installation will be purchased on existing State of Oklahoma contracts and federal GSA contracts; thus, a bidding process will not be required to purchase any item related to this project.

The current state vehicle contract expires September 14, 2016 and will renew on September 15th. If typical, a price increase will occur with renewal of that contract.
