To Whom it may concern,
I respectfully submit my objection to Application # STR-0038 as a resident of 1014 S. Fairfield Drive.

The personal reasons I object are:

1. the area of our street is on a curve, which promotes crowding on our street, especially on game days, holidays and graduation events. This is a problem at the best of times; however, I am happy that our neighbors have friends over to celebrate these worthy events. I would not wish to invite even more people to park here who have no interest in my community.
2. we have children in our area who are learning to, or are engaged in, bicycle riding. These young drivers do not usually play in the street; however, we all in our neighborhood understand they sometimes roll down the driveway and encroach a bit as they master their quick turning abilities,
3. having short term rentals in any neighborhood brings with it the element of the unknown. Again, our neighborhood children might be at risk, as exposing young children on a regular basis to passing strangers may not be in the best interests of families; hence, my neighbors might suffer,
4. and, lastly but perhaps most importantly, is the fact that our Tradan Heights Estates Governing Documents prohibit such activities. We were given this document well before we purchased our lot and designed our home. We understood this issue would not be brought before us.

Objection respectfully submitted,
Leann Voss
