COVID-19 UPDATE

Payne County appears to be seeing an upward trend from 4.57 to 10.71 positive cases per day. Stillwater positives have increased from 3.42 to 8 per day over the past few weeks. Area (Payne, Kay, Pawnee and Noble Counties) positive cases have increased from 9.42 to 23 per day. We continue to have three to five positive COVID-19 inpatients. Early on in the pandemic a New England Journal article advised sending patients home on oxygen when additional care is not necessary. SMC has followed that recommendation and are able to keep some patients out of the hospital or get them home earlier. We are able to monitor their progress through pulse oximeters and nurse navigation. This has allowed us to have fewer COVID-19 inpatients and creates greater capacity.

We continue to prepare for a possible surge. We learned that FEMA will reimburse 75% of the cost for a negative pressure isolation system (tent). We would like to consider purchasing 3, 12-bed units, which could be placed near the southwest areas of the facility grounds, just outside of the Emergency Department. These units come in reusable containers and could be stored at Cimarron Medical. Having these units would allow us to be prepared for other emergencies as well, such as tornados. The cost is approx. \$500,000, of which we would be responsible for 25% or \$125,000. Taylor agreed to look further into the FEMA requirements. Integris and St. Francis each currently have 90+ COVID-19 inpatients. The State has had issues in obtaining Remdesivir. OSU will begin testing hundreds of students the first week of August.

MEDICAL STAFF UPDATE

William (Drew) Anthony, DO, Family Medicine, and his wife Aerial Anthony, PA, Internal Medicine, will start practicing in August. Our new OB/GYN, Sean Reid, MD is joining Stillwater Women's Clinic and Julie Nelson, MD, will begin practice at our clinic in Pawnee. Both are scheduled to start in October. In November, Jacey (Cha) Hutchinson, DO will join Stillwater Pediatrics.
