Gary Johnson, Airport Director briefly explained the Oklahoma State University Flight Center lease agreement was reviewed annually to meet state accounting budget policies. The one-year renewal lease term would begin July 1, 2016 through June 30, 2017. The lease provides for an annual rent escalation based on a positive increase of the Consumer Price Index (CPI). During the past 12 month period the CPI increased .84 percent which would increase the monthly rent to \$1,066.33. Mr. Johnson stated if the lease extension received Authority approval it would be placed on the City Council agenda for on June 6, 2016. Director Johnson recommended Authority approval for the OSU Flight Center one-year lease renewal as presented.

- c. Approval of temporary agreement with Oklahoma State University for MD-80 learning laboratory site (SRAA-16-23)

Director Johnson described the OSU MD-80 temporary lease agreement to the Authority as part of the necessary process to be extended for another year. The additional time would provide OSU Legal Counsel and the City to work out any final details on a longer term agreement. The current original temporary agreement would expire on June 30, 2016.

Mr. John Dorman, City Attorney added that he expected to have the longer term agreement back from OSU in possibly 60 to 90 days. Mr. Dorman continued that the City needed something to fill the gap until the long term agreement was complete. Oklahoma State University's policy was adamant about having all lease renewals prior to July 1 for their appropriate signatures. The City Attorney recommended the Authority to approve the temporary lease extension.

Mr. Johnson concluded stating if the Authority approved the temporary lease it would be on the City Council agenda on June 6, 2016.

d. Rates and charges review and sub-committee (SRAA-16-24)

Director Johnson stated the responsibility of the rates and charges sub-committee was to annually review the airport's rate structure as required by the FAA grant assurances. The airport's rates should represent a fair market value to help airports be as self-sufficient as possible. In addition, the sub-committee would work with airport staff during the standard rate review process for other fees of additional services and rentals related to the upcoming airline service on August 23. Mr. Johnson had previously obtained the Consumers Price Index (CPI) for the previous twelve months and noticed a small increase. The written land and property leases rents would reflect the small CPI adjustments by July 1, 2016. The airport was a little later than usual requesting a sub-committee due to the upcoming commercial airline services. Director Johnson added that the Authority did not have to make all of the rate adjustments before July 1 if the Authority needed more time to work on the extended rate process or if the Authority opted to use a different rate review methodology.

Chairman Marc Tower reminded the Authority the typical process was to look at the other peer airports of equal size and services to review what rates have in place. Tower suggested to the Authority the possibility of exploring a new way to review the rates and charges. Chairman Tower added that he had spoken with Authority member Jerry Franklin who wanted to volunteer to serve on the sub-committee. Tower suggested obtaining an outside sub-committee volunteer to help. The Chairman relayed Mr. Robert Cornell, Department Head, OSU Accounting Department and an airport tenant had offered to help evaluate a rational process.

Member Charles Bacon volunteered as an addition of the review committee since he had served on many past rates and review sub-committees as the third person.

Mr. John Dorman, City Attorney recommended the Authority to take a vote on the selection sub-committee members once they were appointed.

MOTION BY TOWER, AND SECONDED BY SMITH FOR THE APPROVAL OF THE SELECTION OF RATES AND CHARGES REVIEW SUBCOMMITTEE MEMBERS JERRY FRANKLIN, ROBERT CORNELL, AND CHARLES BACON.
