STILL PIONEERING

REPORT TO AIRPORT AUTHORITY

SRAA-16-36

Date of Meeting: July 21, 2016

Subject: Approval of vendor subcommittee interim regulations/standards regarding transportation service providers

Purpose of Report: Review and possibly approve proposed interim standards for transportation service providers

Background Discussion: The proposed interim standards are developed to license and regulate the providing of ground transportation services to and from the airport terminal. The standards will help insure that those operating in the transportation services business are doing so in a manner that delivers safe and efficient service to the airline customer while paying for the right to operate and derive business from the airport. Additionally, the standards will ensure the airport is following FAA requirements for revenue creation from those deriving income from airport uses.

Mr. John Dorman, City Attorney has developed a draft for the Authority to review and consider for approval.

Recommendation: Airport staff recommends Authority approval of the proposed interim standards regarding ground transportation service providers.
