

**Meeting Date:** December 5, 2016

**Agenda Item:** Resolution No. SUA-2016-

**Report No.:** SUA-16-58

**Department:** Waste Management

**Subject:** Convenience Collection Center

**Budget Impact:** This item requires no new appropriation.

**Prior Council Action or Part of an Approved Project:** No

**Recommendation:** No action is needed with this report. It is recommended that the Trustees approve the resolution proposing an increase in the fee for dropping off TV'S & monitors at the convenience collection center.

**Prepared by:** Chris Knight, Waste Management Manager

---

**Background Information:** The convenience collection center accepts televisions and monitors (TV) to be recycled. The charge to drop off a TV is \$20.00 for those larger than 32 inches, \$15.00 for those that are 20 to 32 inches and \$10.00 for those that are smaller than 19 inches.

The TV'S are taken to Natural Evolution, Inc. in Tulsa to be recycled. Natural Evolution has recently increased their fee to a flat rate charge of \$20.00 per TV. We currently recycle 24 trailer loads. With labor, fuel and disposal fees, each TV cost approximately \$24 to recycle. A flat fee increase to \$25.00 per TV would cover the cost for recycling TV's.
