

**ELECTRIC RATE**  
**ELECTRIC VEHICLE CHARGING STATION SERVICE (EVC)**  
**Revision 1**

- I. EFFECTIVE IN:** All areas served by Stillwater Electric Utility, herein referred to as SEU, of the Stillwater Utilities Authority.
- II. AVAILABILITY:** Electric service for powering charging stations for electric vehicles in public (non-residential) locations.

Service will be furnished in accordance with SEU Rules, Regulations, and Conditions of Service, and the Rules and Regulations of the City of Stillwater and the Stillwater Utilities Authority.

- III. CUSTOMER CHARGE:** \$35.00 per bill per month
- IV. DEMAND CHARGE:** \$9.53 per kW-month for all months
- V. ENERGY CHARGE:** \$0.05529 for all kWh
- VI. MINIMUM BILL:** The minimum monthly bill shall be the Customer Charge, plus the Demand Charge as computed under this Rate Schedule. SEU shall specify a larger minimum monthly bill, calculated in accordance with SEU's Allowable Expenditure Formula in its Terms and Conditions of Service when necessary to justify the investment required to provide service.
- VII. LATE PAYMENT CHARGE:** A late payment charge in an amount equal to ten per cent (10%) of the total amount due on each monthly bill as calculated under this Rate Schedule or \$2,500, whichever is less, will be added if the bill is not paid on or before the due date stated on the bill. The due date shall be twenty-one (21) days after the bill is mailed.
- VIII. DETERMINATION OF BILLING DEMAND:** The Billing Demand is the demand value, in kilowatts, upon which the demand charge is based. This value shall be the greater of the following:
- a. The Maximum Demand established during the billing month;
  - b. A value not less than 65% of the highest Maximum Demand, determined during the previous 12 months ending with the current month.

**IX. SAMPLE CALCULATION**

1. Calculate demand charge by multiplying the Billing Demand as determined in Part VIII by the Demand Charge.
2. Calculate energy charge by multiplying the energy used (kWh) by the Energy Charge.
3. Multiply total energy used (kWh) by the current month's Production Cost Adjustment (PCA).
4. Total Steps 1, 2 and 3.
5. Add the Customer Charge.
6. Multiply total of Step 5 by the applicable tax.

**X. SALES OF ELECTRICITY BY CUSTOMER:** Sales of charging services from the electric vehicle charging station shall not be subject to rate regulation by the Stillwater Utilities Authority.

**XI. DEFINITIONS:**

- A. Maximum Demand: The maximum rate at which energy is used for any period of 15 consecutive minutes during the billing month, as shown by SEU's demand meter or metering equipment.
- B. Production Cost Adjustment (PCA): A factor determined by SEU and applied to the cost of energy used by the consumer to account for variations in the cost of generating or purchasing power.
- C. Billing Month: A period of approximately 30 days extending from the previous meter reading date to the present meter reading date.
